Re: **Required Submission of Information**
Lower Darby Creek Area Superfund Site -
Clearview Landfill, Folcroft Landfill & Folcroft Landfill Annex

Dear Mr. Egan:

At your request I am sending this letter to confirm our conversation.

I had phoned you to see if you had any documentation that might help me in researching any possible contact The Franklin Mint had with the above-captioned site. I also requested an extension of time.

In our follow-up conversation you advised me that I could have until September 5, 2003 to respond to the Questions and should phone you if I found I needed additional time. You also advised me that you were unable to locate any hard documentation to help in my search. You did let me know that The Franklin Mint's name was mentioned in an interview with a driver for Eastern Industrial Waste.

We appreciate your willingness to grant an extension of time and will do our best to respond on or before September 5, 2003.

Very truly yours,

Howard P. Lucker
Vice President and
General Counsel
